PROFILE SUMMARY

Full Stack Developer with 2+ years of experience in building web applications, SaaS platforms, and enterprise systems. Skilled in Laravel/PHP, PostgreSQL, Next.js, JavaScript/TypeScript, React.js, Vue.js, Java Spring Boot, and Go (Golang). Experienced in system architecture, RESTful API development, database design, third-party integrations, multi-tenant SaaS, and production deployment. Strong problem-solving skills with a focus on building scalable, reliable, and maintainable software solutions.

PROFESSIONAL SKILL

Javascript	React Js / Vite Js / Next. js	REST API	CSS / Tailwind CSS	Git
Typescript	Angular / Vue	Go	PHP / Laravel	MySQL / PostgreSQL / Mongo DB

EDUCATION

Telkom Institute Of Technology Purwokerto	2018 – 2022
Software Engineering	
GPA Score 3.71 out 4.00	
SMK Negeri 2 Karanganyar	2014 – 2017
Rekayasa Perangkat Lunak	

WORK EXPERIENCE

Full Stack Developer

KSP Mitra Sejati Persada	June, 2026 – Now
- Developed and maintained RESTful APIs and backend services using Laravel/PHP and PostgreSQL for a multi-tenant SaaS POS platform. - Designed and implemented responsive web applications using Next.js, integrating frontend components with REST APIs and backend services. - Designed multi-tenant database architecture supporting inventory, transactions, reporting, accounting, and synchronization workflows. - Developed a lightweight Go (Golang) printer bridge to enable communication between web applications and local thermal printers.	

Full Stack Developer

PT. Subaga Digital Medika – Transmedic On Site Team	April, 2024 – 15 December, 2025
- Developed and customized healthcare information system features using Laravel, Angular, Vue.js, PostgreSQL, and MongoDB. - Integrated external healthcare APIs, including BPJS V-Claim, SATUSEHAT, and E-Klaim, to support healthcare business workflows. - Analyzed hospital workflows and translated operational requirements into application features and system improvements. - Performed debugging, troubleshooting, performance optimization, and feature customization for production applications. - Developed reporting features covering workflows from patient registration through cashier and billing processes. - Provided technical training and application support to end users.	

Employment Certificate

Junior Fullstack Developer

PT. Pro Sigmaka Mandiri	September, 2023 – January, 2024
- Developed backend applications using Java Spring MVC and Spring Boot. - Implemented frontend applications using JavaScript, React.js, and Vite.js. - Applied programming logic, REST API development, and database integration in web application development.
